Year in Industry

My placement

Year in Industry

What is Year in Industry?

- Scheme run by the EDT
- Organises year long placements
- For pre-uni and undergrad students

How does it work?

- Complete online application form
- Send C.V to YINI
- Interview with YINI
- Interview with company
- Year long placement

Online form

- 10-15 minutes
- Exam results
- A bit about you

C.V

- Exam results
- What you want to do in year
- Why you should be employed

- Telephone interview with YINI
- Interview with company

My placement

- Technology company in Havant
- Started August 1
- Working on BMS for quadcopters

LiPo batteries are dangerous!

System I designed

- Records cell voltages
- Temperature of critical points
- Current reading
- All sent back to control

Summary

Summary

- YINI is a great way to spend gap year productively
- Can apply easily online
- Apply as early as possible
